

## Fleeced Bell Boots Rubber Boots

We are the professional manufacturer of Fleeced Bell Boots Rubber Boots, the Soft fleece collar to provide extra protection with a soft and flexible fit with double lock velcro closure. The soft fleece around the top prevents chaffing. Designed for durability, the boots are constructed out of heavy-duty rubber and have double hook and loop closures for simple application. Liangju Rubber produce affordable and durable horse rubber bell boots for many famous brands. We are also supplying affordable and durable equine products, like horse bell boots, horse boots, rubber brushes, stall chains, rubber reins and others.

## 1. Product Introduction of the Fleeced Bell Boots Rubber Boots

The LeMieux Fleece Rubber Bell Boots are both functional and stylish! Made with a durable, ribbed rubber shell, these offer more flexibility than other bell boot styles. The soft fleece edge ensures a rub-free design while the double locking velcro closures provide a secure and customized fit.

Basically, bell boots help prevent problems from overreaching. Also, if your horse loses shoes in turnouts or always completes the ride with scrapes, dirt marks, or bruises, he may benefit from bell boots. These horse boots also help when you compete in roping, reining, jumping, or any events that require high energy. It's Fleeced Bell Boots Rubber Boots so it's warm and comfortable to wear.

We choose good quality rubber material for all the rubber horse bell boots, we offer the following standard rubber materials in a range of durometer (Shore A) hardness to satisfy practically any service condition. These materials are most common, but we do offer the ability to provide custom compounds of most rubber elastomer types: Natural Rubber, EPDM, Silicone and PVC

## 2. Product Parameter (Specification)

Product Name:	Fleeced Bell Boots Rubber Boots.
Material:	NBR, HNBR, EPDM, SILICONE, VITON, FLS, FFPM, PTFE
Size:	Any size, Customized/standard and nonstandard
Color:	Any Color
Packing:	plastic bag&carton box or according to your requirements

Sample time:	20-25days
Application:	Horse
Warranty:	2years

### 3. our service.

1. Inquiry about our products can be replied within 12 hours.
2. Professional & experienced staff help you solve problems of silicone and rubber products.
3. Accept customized shape, material, hardness, temperature, size, color, logo and packing.
4. Mode of production: Compression or injection or extrusion.
5. We have a comprehensive range of in-house manufacturing facilities, allowing us to provide fast and effective manufacturing.

### 4. Quality Control and Certifications

We serve our customers with high quality Customized Shape Rubber Gaskets by strictly follow ISO 9001:2015 and IATF 16949.

## 5. Packing, Payment and Shipping

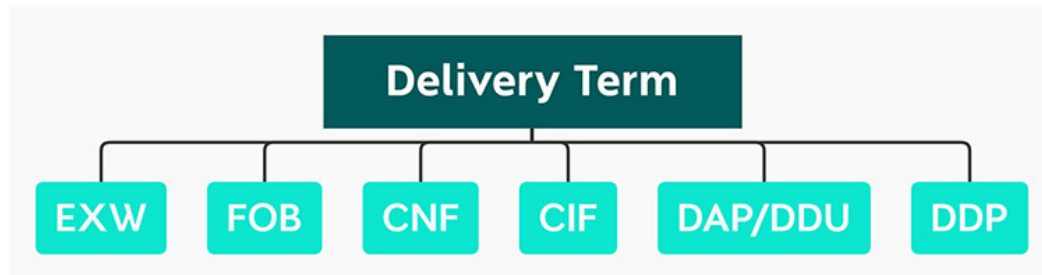

Our packing for all the Customized Shape Rubber Gaskets, strong enough to ensure its safety throughout the whole delivery no matter domestic or oversea shipping. Customized Packing/LOGO/Labeling are Available.

ISO 9001 : 2015

IATF 16949 : 2016

## 6. FAQ

### 1. Do you supply material?

Yes, we have our own mixing rubber factory and can supply you with Synthetic Rubbers to fit your applications.

Xiamen Liangju Rubber Technology Co., Ltd.

Tel: +86-592-7255151

E-mail: Dylan@tec-rubber.com

## **2. If OEM is acceptable?**

Yes, Samples are Free of charge

## **3. What Is EPDM Rubber ?**

EPDM is a synthetic rubber polymer and is made from ethylene and propylene monomers. This rubber was developed in the early 1960's and used to produce variety of products like radiator and steam hoses, freezer gaskets, tires, roofing membranes and aircraft seals to name only a few.

## **4. Why is rubber used to produce industrial products?**

Rubber has certain unique properties which makes it suitable to produce rubber products which are widely used in various industrial applications. Rubber is water repellent. It is resistant to alkalies and weak acids. Rubber has elasticity, toughness, impermeability, adhesiveness, and electrical resistance. These properties make rubber useful as an adhesive, a coating composition, a fiber, a molding compound, as well as an electrical insulator.

## **5. Which type of rubber is best for my application?**

There are a range of natural and synthetic rubbers with different properties, making some more suitable than others for particular applications—the key of course is choosing the most appropriate one! For specific requirements, please ask our rubber products specialists for guidance.
